JOB HAZARD ANALYSIS

Job steps, hazards and controls, following OSHA 3071

JHA no.	Job or task	Job title	Location
Analysis by	Reviewed with	Date	Review by
Required PPE	Training	Procedures	Supervisor

Steps, hazards and controls

No.	Job step	Hazard: what can go wrong	Consequence	L (1-5)	S (1-5)	Risk	Controls	By whom

Controls, in order of preference

1. Eliminate the hazard or substitute something less hazardous. 2. Engineering controls: guards, interlocks, die carts, safety blocks. 3. Administrative controls: procedures, training, job rotation, signs. 4. Personal protective equipment, as the last line of defense. L is likelihood and S severity, each rated 1 to 5 before controls. Risk 1 to 4 is low, 5 to 9 medium, 10 to 14 high, 15 and over stop the job until controlled.
